Field Coordinator's Report

Tamara will be approaching Korum in Puyallup about upgrading the soccer fields.

The fields need to be aerated after Spring Fling League, push the fields back further; the land is elevated more so and less water puddles.

The Board will need to order new Goals for the older groups. In addition, a few goal posts will need to be painted.

The fields will need to be ready by June 2011 for up and coming Tournaments.

OSC needs to look into possible "field experts" to help with the layout.

The MOWER: Treasurer needs to get a payment to Mike McCoy for broken mower. We need a mechanic to look at the mower and inform the Board if it is worth fixing. There is an outside person willing to

trade our broken mower for a working mower, it is bigger, but we do not know the condition of the working mower. We will address this matter when we have a mechanic assess our broken mower.
